ISSUE DATE: October 2, 2024

SUBJECT: Federal Family Education Loan Program Calculation of Quarterly Special Allowance Payment (SAP) Rates for the Quarter Ending September 30, 2024

The U.S. Department of Education (ED) is required under section 438 of the *Higher Education Act* to calculate and issue the quarterly SAP rates for the three categories listed below.

TREASURY BILL RATE

The Treasury bill rate is the average of the bond equivalent rates of the 13-week Treasury bills as published by the U.S. Department of the Treasury. For the quarter ending September 30, 2024, the average of the rates is 5.12%.

COMMERCIAL PAPER RATE

The commercial paper rate is the average of the bond equivalent rates of the quotes of the 3-month commercial paper financial rates in effect for each day in such quarter as reported by the Federal Reserve in *Publication H-15* (or its successor) for such 3-month period. For the quarter ending September 30, 2024, the average of the rates is 5.26%.

SOFR RATE

The Secured Overnight Financing Rate (SOFR) rate is the average of the bond equivalent rates of the quotes of the 30-day SOFR in effect for each day in such quarter as compiled by the Federal Reserve Bank of New York, after adjusting daily by adding the Tenor Spread Adjustment. For the quarter ending September 30, 2024, the average of the rates is 5.56%.

ATTACHMENTS

Attachments A, B, and C contain the quarterly SAP rates computed pursuant to section 438.
